Maxim. Question.

You have 116 Access Centres in the province but you say in your feedback to our text that these are the local bases for outreach to 600 rural, remote, Northern etc. communities. How does 116 become 600? Not trying to bug you. We are just being careful to make sure that what we say is accurate and we understand what we are saying.

Harvey, you are not “bugging” me at all. On the contrary. I indeed need to help you understand the multiplier effect from 116 to 600.

Each access centre supports Ontarians in a “territory”, which includes a group of the 600 small, remote, rural, Indigenous and Francophone communities in the immediate area.

Here are three examples to illustrate:

Online Learning Centre Location	Territory Name	Contact North Contact Nord Staff Does Outreach to this Number of Communities
Bracebridge	Muskoka Haliburton	96
Dryden	Northwest Tri District	52
Haileybury	Temiskaming	13

See attached the list for each of those three centres.

Your feedback to the stuff we sent to you already has been most helpful.

Also, with the table you sent re Contact North and student registrations at Northern. You report that CN was engaged in about 4900 student registrations. I want to be sure I understand what a student registration is. So, if one student that you helped takes 5 course at Northern, I presume that is five course registrations, not one. Right? **Correct**

Thanks.

HPW
